

Hand Surgery Fellowship

Original ACGME accreditation date: 08/01/2015

| | |
|--|-------------------------------------|
| Program Director Name (Year appointed) | Michael McKee, MD (2023 Interim PD) |
| ACGME Current Approved Complement | 2 |
| Accreditation Status | Continued Accreditation |
| Length of Training | 1 year |

Accomplishments

- ▶ We carefully constructed a flexible curriculum which our fellows believe is among the most attractive aspects of the program.
- ▶ Our curriculum is designed to meet each fellow's individual, personal and professional goals.
- ▶ Our participation in the International Bone Research Association provides great opportunities to fellows who complete month-long ACGME-approved rotations abroad and gain international recognition.
- ▶ The program maintained high surgical volumes to continue the excellent experience for fellows even during the challenges of the pandemic.

Strengths

1. Program consistently produces high quality, well trained hand, upper extremity, and microsurgery surgeons to be able to enter private practice.
2. We offer a carefully constructed and flexible curriculum to meet each fellow's personal and professional goals.
3. Changes are continually being made to enhance the opportunities available and training provided to each fellow, including adding faculty and restructuring rotations and sites.
4. The 2023 ACGME fellow survey was a four-year summary of responses from the last eight fellows going through the program and showed 95.8 to 100% compliance.
5. The 2023 ACGME faculty survey results were "very positive" at 95% overall evaluation of the program.
