

Minimally Invasive Gyn Surg. Fellowship

(Non ACGME)

Original Accreditation by the American Association
of Gynecologic Laparoscopists in 2015

Program Director Name (Year appointed)

Jamal Mourad, DO (2015)

Current Approved Complement

2

Accreditation Status (last site visit)

AAGL, (2019)

Length of Training

2 years

Accomplishments

- ▶ The fellowship is a two-year program that is currently approved for one fellow per academic year, with the intent to increase that in the near future.
- ▶ Our fellowship received the AAGL FMIGS maximum accreditation cycle of five years in 2019, with no deficiencies recorded.
- ▶ All (100%) of our fellows have secured employment of their choice well before graduation, including roles in academic medicine and private practice.
- ▶ Our faculty continues to hold leadership positions locally and at the national level, participating in key committees and actively helping to shape the future of our specialty.

Strengths

1. Clinical volume
2. Surgical expertise
2. Experienced faculty
4. Robust research and scholarly activity opportunities
5. Interdisciplinary collaboration with other specialties
