

OB/GYN Residency Program

Original ACGME accreditation date: 05/07/1951

Program Director Name (Year appointed)

Brian MacArthur, MD (2020)

ACGME Current Approved Complement

36

Accreditation Status

Continued Accreditation

Length of Training

4 years

Accomplishments

- ▶ Hosted a faculty retreat focused on diversity and inclusion
- ▶ Continued to see year-over-year growth in the number of applicants to our program
- ▶ Developed a succession plan for the program director role
- ▶ Executed a nearly seamless leadership transition during the midst of a global crisis

Strengths

1. Resident camaraderie and connectedness are fostered through a variety of activities including our annual residency retreat and frequent class activities led by faculty ombudsmen.
2. The dedicated women's health faculty within our academic, private, and subspecialty practices are committed to the education of our residents and fully engaged in their success.
3. Individual attention is paid to resident needs using a holistic approach, including both professional and personal support through an individual mentorship program for interns.
4. This tertiary care institution and our many faculty partners facilitate high surgical volumes allowing resident opportunities that far exceed the minimum standards expected by the ACGME.
5. Our highly experienced residency coordinator ensures that the mechanics of this large OB/GYN Residency Program, along with its many faculty and educational sites, operate seamlessly.
